Impact Resistance FM4473 Class 3  
Rapid Shutdown UL 3741  
California CEC Registered  
FBC HVHZ Approved

\*See CertainTeed's limited warranty for details

### Features and Benefits

#### Beautiful

- Sleek and uniform appearance that integrates seamlessly with asphalt shingles

#### Simplified

- Easy design and permitting using industry leading software
- Designed for fast installation by shingle roofing crews. Installed directly on roof sheathing using standard deck screws.

#### Dependable

- Industry-leading reliability thanks to use of patented state-of-the-art technology that makes the Solstice Shingles one of the most electrically and mechanically robust solar shingles on the market
- Market-leading impact and wind resistance for solar shingles. Rated to be installed in any wind zone including Florida's high velocity hurricane zone.
- Watertight: Water channels and raised fastener locations provide added protection against water intrusion. With over a century of roofing experience, we know how to keep water out of your home.
- Superior performance even under diffused light and shade boosting overall energy production
